

KD-SL01P

Tumbler

Movable Spot Light on the floor

*The lamps are easy to replace and
can be adjusted*

94.5cm L x 23cm W x 65cm H

Lamp: QR111 50W

Available color: Silver

Features:

- Movable*
- Easy operation & maintenance*

Power Supply:

- Voltage 120V or 230V, 50-60Hz*

Application

- Any indoor space*

KD-SL02P

Pica-pica

Spot Light

Emitting ultra high color temperature up to 6000K that is much higher than most halogen lamps

Mounting on KCP-700, KD-900, KD-C05 or KD-PR100

Lamp: HID 32W

Socket: GU 10

Beam angle: 24 ° and 60 °

Life time: 2000hrs

Material: Stainless steel

Available color: Chrome

Features:

- *Low power consumption*
- *Low heat generation*
- *Easy operation*

Power Supply:

- *Voltage 100V, 50-60Hz*
- *Voltage 120V, 50-60Hz*
- *Voltage 230V, 50-60Hz*

Application

- *Any indoor space*

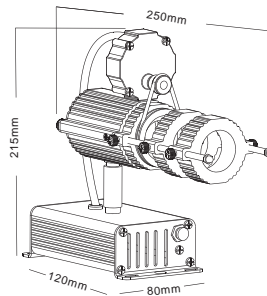

KD-SL03P

Image Projector

For high quality projection of images, logos, and patterns

The slot for gobos are easy to replace and can be rotated and aligned

Lamp: HID 32W
 Socket: GU 10
 Life time: 2000hrs
 Available color: Silver
 Weight: 1.5 kg

Features:

- Aluminum housing
- Ultra low power consumption
- Focus adjustable
- Accept either glass or metal gobo
- Easy operation & maintenance

Gobos:

- Outside DIA. 37.5mm
- Maximum image DIA. 20mm

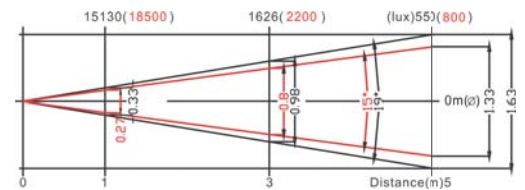

Power Supply:

- Voltage 120V or 230V, 50-60Hz

Application

- Any indoor space

Photometric

Custom Gobo

Kupo manufactures its own dichroic glass with precise manufacturing processes to provide quality control, uniformity and precision for multi-color and increased hi-definition glass gobo designs

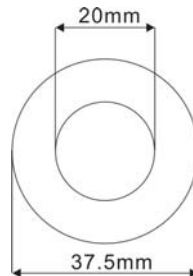

Gobos are thin masks that are placed into a projector to shape the beam and project logos, graphics and patterns

Custom gobo effectively creates image and brings the value to clients

Glass gobos allow fine details and very high resolution on an precise coating

Gobo Size:

- Outside DIA. 37.5mm
- Maximum image DIA. 20mm

Vector Formats:

- EPS
- AI
- CDR
- DWG

High Resolution: at least 300dpi
